2.	Originator	Internal Source
3.	Date	Aug 05 2025 11:30 AM
4.	Theatre	HUMINT
5.	Current Priority	For Action
6.	Subject	Tech Innovation Lab - AI Chatbot Development for Internal Helpdesk
7.	Input	A reliable internal source reported that the Tech Innovation Lab is currently developing an AI-powered chatbot for the company's internal helpdesk system. The project is led by Shruti Pandey and Arun Shetty with technical guidance from Amit Sharma. The team is using large language models and retrieval-augmented generation (RAG) techniques learned during the Coding Bootcamp (ref: TMS-2025-0412). Kiran Reddy from the AI/ML Study Group is contributing the machine learning components, creating a cross-group collaboration. The chatbot is expected to handle IT support queries, HR policy questions, and facilities management requests. Joseph Thomas is handling integration with existing enterprise systems. The source mentioned that this project has attracted attention from the management who are considering expanding its scope to serve external clients. Sanjay Patil is coordinating the user testing phase with volunteers from multiple departments. Estimated completion is September 2025.
8.	Grading	B2
9.	Has Attachment	No
