Details

1.	TMS I.D.	TMS-2025-0612
2.	Originator	Internal Source
3.	Date	Jun 10 2025 1:00 PM
4.	Theatre	HUMINT
5.	Current Priority	Routine
6.	Subject	AI/ML Study Group - Weekly LLM Study Sessions
7.	Input	An internal source reports that the AI/ML Study Group has been conducting weekly study sessions focused on Large Language Models (LLMs) every Thursday evening since March 2025. These sessions were initiated by Kiran Reddy as a follow-up to insights gained at the IEEE Conference (ref: TMS-2025-0312). Sneha Krishnamurthy leads sessions on NLP techniques and prompt engineering. Lavanya Subramaniam covers model fine-tuning and optimization. Prakash Hegde focuses on deployment and infrastructure. Venkatesh Rao leads hands-on coding sessions. Attendance has grown from 6 core members to regularly over 20, attracting participants from the Tech Innovation Lab including Amit Sharma, Shruti Pandey, and Arun Shetty. Manpreet Singh is documenting the sessions into a knowledge base. The source noted these sessions directly contributed to the Tech Innovation Lab's AI Chatbot project (ref: TMS-2025-0834) - several techniques discussed in the study sessions were applied in the chatbot. The Group is now exploring retrieval-augmented generation (RAG) and is planning to develop tools for local government use.
8.	Grading	A1
9.	Has Attachment	No
10.	Input Closed
